
The Eighteenth Annual Run for the Red Roses of Texas ..... XI·22·81

the 22nd of this month marks the anniversary of the barbaric, public execution of President John F Kennedy ... 18 years ago the threat of Peace in One World spurred the Military-Industrial Complex into executive action in Dallas .... today the success of that operation can be seen in the Chief Executive's smile, secure in the "First" World's Professional War Machine's bosom as it weaves and dodges in shadow-heroin-play with those of the "Second" and "Third" Worlds ...

for many readers GKG's position is exemplified by Quixote's fearless charge (above) ... it takes on a different hue when you discover you cannot honestly tell your neighbor who killed JFK ... so we continue to fine-tune our base, the best solution to the President's murder, the better to laugh at the media-oriented conclusions by experts who haven't a clue as to who actually did kill JFK ... our restatement of Crossfire 81 is now adapted to your formative years of comprehension ... see you in the funnies on pages 2 & 3 ...

and now from Cervante's sublime to the sublimely ridiculous ...but nonetheless real : page 371, The Nation for X/17/81

TAKING CIA CRITICS to COURT by Eve Pell $90 million
... David Atlee Phillips ... recently filed a libel and slander suit against Donald Freed, author of Death in Washington and several researchers who worked on the book, which accuses the CIA and Phillips of complicity in the 1976 assassination of Orlando Letelier ...(and) Ronni Moffitt ...
Phillips has also filed a $70 million action for libel and invasion of privacy against Gaeton Fonzi and The Washingtonian for an article by Fonzi discussing possible links between Phillips and the assassination of John F Kennedy as well as CIA plots on Fidel Castro's life...

from almost any Ivory Tower it would appear that 1) THEY will never allow these in open court because 2) Phillips will have to hang out too much dirty linen ....

these two shots are heard by most as the "third" shot... about a dozen witnesses hear them as the "third" and "fourth" shots.

Elm St, Dealey Plaza, Dallas, TX, USA ... XI·22·63

Since the Dealey Plaza Coup d'Etat we have had the uncoscionable "investigative" reports of two government-controlled agencies vis-à-vis innumerable explanatory theories created from critical analysis of the available facts ... we feel our interpretation, concocted over the past fourteen years, has brought us as close to the truthful solution of the murder as is humanly possible and a measure of our proximity is the quantity and vehemance of the disinformation which the media has foisted upon us all ....

During the past two years we've had a new look at ~~the~~ That conspiracy bewilderment, the Dallas Police Tape, a new track on the cause of JFK's wounds with its double-casket security operation, Blakey's "the mob-did-it" confusion and the exhumation of the body in LHO's grave ...the specialists and the media have stated emphatically that the body was Lee Harvey Oswald's but the statements once again raise more questions than they lay to rest ... accustomed to recognizing the intelligence-military power in these murders we appreciate its penchant for altered records and replaced persons...

Because we cannot accept sketchy answers we have no recourse but to continue our investigation ... as difficult as anything we have to face is that group which "argues" that we never accept an answer unless it coincides with our finding .... it appears that way only because we reject incomplete, "authotitative" dicta when all we want are the simple, honest answers no one seems able to speak ...

As another anniversary reminds us the murder is still unsolved, our resolve is to remain diligent in the details, well beyond the government's exasperation-point ... in our search for the new pieces of the puzzle we're using Deep Throat's advice to "Woodstien":

LOOK for the MONEY ....
